“ Protecting Our Environment & Children’s Future “

F L O O R A L E R T

VOTE NO !!! SB 292 (Padilla) NO Football Stadium Waivers

- The Public Did Not Elect Legislators To Gut & Amend Public Supported Bills For A Bill They Never Knew About Until The Last Minute Without Their Approval.
- The California Public Supports The California Environmental Quality Act 100% And Does Not Want Billion Dollar Corporations Buying Off Legislators To Waive Its Requirements.
- The # 1 Reason EIR’s Are Always A Problem Is Because Project Sponsors Always Try To Circumvent CEQA Requirements and The EIR’s Never Comply With CEQA Law.
- Every CEQA Lawsuit Victory Was Because The EIR Had Significant Errors, Omissions, Misstatements of Facts, Failed to Identify All Negative Impacts, Failed To Include Maximum Achievable Pollution Control Technologies, Failed to Incorporate Zero Emission Technologies, Failed to Assess Alternatives and Failed to Mitigate All Impacts To Less Than Significant. Public Cannot Trust Gov. Lead Agencies.
- Los Angeles Traffic is a Nightmare Now and Will Only Get Worse. The Metro Trains Are Currently at Capacity. No New Additional Short Line Will Make Any Significant Difference.
- The Promise of 10% Public Transportation Ridership is Not Adequate and Unenforceable. You Cannot Force People to Ride a Train or Bus. There are no significant innovative measures being proposed.
- Legislators Have Failed Statewide to Develop an Adequate Public Transportation System and Follow Sustainable Land Use Guidelines. That is Why We Are in an Urban Traffic Congestion Crisis Now.
- No Detail Proposal Has Been Presented That Will Mitigate Over 25,000 Polluting Vehicles.
- No Detail Proposal Has Been Presented That Will Mitigate All The Global Warming Impacts.
- No Detail Proposal Has Been Presented That Will Mitigate All Public Health and Safety Impacts.
- The Increased Air Quality Cumulative Impacts Will Cause California to Lose Hundreds of Millions of Dollars of Federal Transportation Funds Due to Nonattainment of Federal Air Standards.
- We Do Not Support The Project Sponsor Buying Pollution Offset Credits That Allow Them To Continue to Pollute in Los Angeles and Surrounding Cities. The South Coast AQMD was Already Found Guilty of Creating Fictitious Credits.
- Investment in Green Alternative Technologies Will Create More Jobs and Better Paying Jobs in Los Angeles and California Than The AEG Football Stadium - Service Industry.
- The California Air Resources Board and the South Coast Air Quality Management District Have Failed to Reduce Air Pollution To Less Than Significant From any Major Source and Failed to Mandate Feasible and Cost-Effective Measures in Their Rule Making, Permits and EIR’s.
- We Do Not Support Depriving The Public Of CEQA Legal Due Process Rights and Time Needed For Legal Case Preparation. 40 days is Not Adequate to Review 50,000+ Pages and Prepare A Brief.
