

**Vote Yes on Measure J for Jobs!** Vote Yes on Measure J on Nov. 6 to help LA County rebuild its economy and create hundreds of thousands of good new jobs by accelerating completion of transit, highway and local street projects that have already been approved by voters. Measure J does this without increasing taxes by continuing Measure R, a sales tax approved by voters in 2008 to provide traffic relief, for another 30 years. Measure J does all this and more!

**Creates Jobs Now:** Measure R's transportation projects will create more than 400,000 jobs over three decades, and Measure J accelerates creation of 250,000 of these jobs over the next decade. (Jobs estimate from LA County Economic Development Corporation.)

**Speeds Up Construction:** Measure J will accelerate construction of 7 light rail, subway and airport connection projects and 8 highway projects over the next decade instead of over 30 years as provided by Measure R. Cities can make other improvements to local roads.

**Locally Controlled Money:** Every city in LA County and every part of unincorporated LA County will get 30 additional years of "local return" money – more than \$19 billion overall -- for streets, sidewalks, bike lanes, transit and to fill thousands of potholes every year.

**Strong Oversight:** Measure J mandates independent oversight by a committee of retired judges to make sure tax dollars are properly spent.

**Relieves Traffic:** Measure J provides money for highway improvements that will relieve congestion on all LA County freeways -- the 5, 10, 14, 60, 101, 110, 134, 138, 210, 405, 605 and 710!

**No Pork-Barrel Spending!** There is an agreed-upon countywide plan to speed up projects in the San Fernando and San Gabriel valleys, the South Bay, Southeast LA County and the North County.

**Invests in the Future:** Measure J builds the infrastructure now that will benefit both current and future generations.

## Vote Nov. 6! Vote Yes on Measure J for Jobs!
